MORNING ROSE NURSERY

With joy

we welcome children to the Morning Rose Nursery. In a warm, home-like setting children are gently held in a rhythm and pace that is suited to the young child's unfolding abilities. Our program is based on a deep understanding of the needs of the child and is designed to meet the child at their specific developmental phase. Within our small group, under the caring guidance of a trained Early Childhood teacher, the children will begin to explore their emerging social life. Free play, conscious care giving, and an unhurried atmosphere foster joy and self confidence and allow the children to learn through doing.

Teacher

Magdalena Toran has been working with children and families in Waldorf schools since 2001. She received her Waldorf Early Childhood training from Sunbridge College in Spring Valley, NY and is a graduate of Sophia's Hearth training program for early childhood professionals, "*The Child in the First Three Years.*" Ms. Toran finds great joy in accompanying children as they grow and develop in the world.
